

# Mine Closure

14th international conference 2021

17-19 August 2021  
Shangri-La Centre,  
Ulaanbaatar, Mongolia

The annual ICMC is the platform event for the global mining industry, and a fixture on the calendars of many mining professionals. This meeting provides a forum for attendees from a variety of disciplines to exchange ideas, learn about new developments in the field of mine closure, and focus on the pressing issues facing the mine closure community globally.

The MC2021 will provide you an excellent opportunity to expand your experience with the latest mine closure planning, technology and processes delivered by industry experts from around the world.

It provides opportunities to network with global experts coming from diversity of disciplines, and explore the latest mine closure methodologies and technique breakthroughs.

## Organizers

## Format

*Conference will be held for 3-day and accompanied by short courses on a range of topics of immediate interest and relevance, followed by field trips*

### ◆ Exhibition

During the conference, for three days, the Exhibition will provide unique business opportunities for consulting companies and all related service providers.

### ◆ Field Trips

All day or overnight field trip to Oyu Tolgoi, Erdenet or Nalaikh mines after the Conference. The field trip will reflect the theme of the ICMC 2021, enhancing the sessions and will be both educational and entertaining.

### ◆ Keynote addresses

Globally recognized industry thought leaders will deliver their insights into mine closure, summarize advancements, and discuss the future trends.

### ◆ Plenary sessions

Authors will present their original researches, focusing on a theme of the sessions, from multiple perspectives, providing a coherent perspective for further discussion.

### ◆ Workshops

Industry experts will lead short, practice-based workshops on topics of relevance to the practitioners. The workshops provide an opportunity to discuss latest breakthroughs of researches and will be mostly held in question-answer format.

# Who should attend

*This conference should be of value to all professionals across the entire mining industry, including:*

- ◆ Exploration: geology, geotechnology, hydrogeology, geochemistry
- ◆ Mineralogy/Metallurgy

- ◆ Government
- ◆ Management/ Leadership/ Community relation
- ◆ Consulting: sustainability, environment, remediation and rehabilitation, social license
- ◆ Engineering: mining, planning, project, mechanics, environment

## Call for papers

*Prospective authors in the minerals industry are invited to submit titles and abstracts of their papers on research or work being done for the Mine Closure 2021.*

### Why present a paper?

Presenting a paper is a great opportunity to:

- ◆ Your work will be internationally recognized
- ◆ Your experience and knowledge will be shared
- ◆ You will enrich your experience via being connected with industry thought leaders and various field of experts

### Topics

- ◆ Planning; Landform design
- ◆ Relinquishment; Decommissioning
- ◆ Liabilities and Legacy management
- ◆ Financing and cost estimation
- ◆ Water management; Waste management
- ◆ Geochemistry; Site remediation and impact management
- ◆ Stakeholders and community
- ◆ Land rehabilitation and ecosystem restoration

### Distinguished themes

- ◆ Mine closure in developing countries
- ◆ Top 10 business risks in mining and mine closure
- ◆ Permafrost Taiga to Gobi Desert: Mine closure at varying ecosystems

## Exhibition / Sponsorship

*Sponsorship opportunities are available. Companies wishing to sponsor or exhibit should contact the Conference Executive Manager.*
